CLASSIFICATION TITLE: Senior Network Engineer

GENERAL STATEMENT OF RESPONSIBILITIES:

This is a FLSA exempt position. The Senior Network Engineer is responsible for evaluating, upgrading, and implementing the technology infrastructure at Region Ten in conjunction with the Director of Information Technology. The performance of duties requires analysis of facts and determining action based on the practical application of current technology methods. The incumbent must combine strong analytical skills and problem-solving abilities with project management skills. Must display excellent interpersonal skills when meeting the needs of senior management, technical personnel and end-users. A high level of customer service is to be exhibited in all interactions with outside contacts, staff and colleagues. The ability to work independently on long-projects, seeing them to completion, is required.

The essential functions of this job are starred below (*) under “Major duties.”

MAJOR DUTIES:
1. Provides guidance to the systems, programming, and operation staffs in the solution of hardware/software related problems.
2. Maintain and Upgrade functional networks (LAN, WLAN, WAN)
3. Configure and install software, servers, firewall, switches and phones.
4. Maintains awareness of emerging technologies and project management techniques.
5. Monitor network performance, system security and integrity
6. Resolve issues tiers of support have escalated by troubleshooting cloud and local infrastructure.
7. Automate tasks and monitor their effectiveness
8. Mentor team members on technical issues
9. Create, oversee and test security measures (e.g. access authentication and disaster recovery)
10. Maintain complete technical documentation
11. Design and develop the configurations to be deployed on systems using the approved solution assessment to meet customer requirements.
12. Establishes configuration management practices and ensures that configuration audits are conducted.
13. Other duties as assigned.
14. Serves as a rotational member of on-call.
