CONTINUUM OF CARE

Turning Point provides a full continuum of care to patients from admission into inpatient treatment to outpatient treatment and finally to discharge. We offer a number of treatment programs including:

- Inpatient detoxification and rehab
- Inpatient treatment for psychiatric disorders
- Women's Trauma Program
- Partial Hospitalization
- Intensive Outpatient

The clinical staff at Turning Point consists of board-certified psychiatrists, internal medicine physicians, social workers, counselors, nurses, recreational therapists and mental health technicians. This staff works closely with discharge planning staff to provide patients an integrated and comprehensive treatment experience while they are at Turning Point.

TREATMENT OPTIONS

Psychiatric Care

At Turning Point, our mental health program provides stabilization and treatment for patients struggling with psychiatric disorders.

Women's Trauma Program

Research has found that people using mental health services have experienced high rates of trauma. In addition, these rates are higher than in the general population.* At Turning Point, we utilize a three-phase approach to healing:

1. **Begin to feel safe**
2. **Mourning and Remembrance**
3. **Reconnection**

Our trauma program provides highly individualized treatment with individual and group counseling.

Better care for
better tomorrow

Inpatient Detoxification and Rehab

Detoxification is approached by using the most effective medications available to help reduce the uncomfortable and unpleasant symptoms of withdrawal that often prevent patients from seeking treatment and is followed by inpatient rehabilitation. Here, treatment is continued and group therapy, training sessions and 12-step meetings are incorporated.

Partial Hospitalization Program (PHP)

Turning Point's PHP provides patients with a controlled environment where they can continue treatment after an inpatient stay.

Intensive Outpatient Program (IOP)

This program is designed to provide longer term treatment to help patients break the cycle of relapse.

**REFERRALS
ACCEPTED 24/7**
