HEALING THROUGH CONNECTION.

The Recovery Connection is a female-founded and female-led restorative program of healing of substance use disorder, imbued with heart-centric care. What separates The Recovery Connection from others is simply the experience our clients have with us.

BRING YOUR HEART AND PURPOSE INTO FOCUS.

We believe in you. We will hold space for you. We will walk with you. And we will do it from a place of love. YOU are our "why."

OUR MISSION

We inspire a purpose driven healing experience on the path to freedom.

TRC created a path for me that forever changed by life. Their support encouraged me to accomplish goals that I never thought I could. These ladies are amazing! The compassion and love that they showed me made me feel that people cared. TRC saved my life. They supported me and the care was met with my specific needs. I am successful in my recovery today because of their support. For that, I am forever grateful.

Erica B.
